

As a highly skilled **DevOps Engineer** with extensive experience in **Full-Stack Web Development** and **Linux Systems Management**, I bring a deep expertise in technologies such as WordPress, Laravel, and UI/UX design. I excel at leveraging cutting-edge tools and platforms to deliver impactful and innovative solutions that drive business success.

In my leadership role, I directed a team of five in developing a state-of-the-art gift card sales system '**Laqta**'. I managed all aspects of development, site support, order fulfillment, and project financials. This system utilized sAPI integrations to streamline transactions, resulting in enhanced operational efficiency and a superior user experience, achieving notable market success in Tunisia over six years. Key achievements included a 30% reduction in transaction processing time and a significant increase in customer satisfaction.

At **OkkitO**, I played a crucial role in designing and maintaining their streaming app, which provides live TV and entertainment movies. My leadership ensured the app's successful launch and ongoing performance, with user engagement metrics showing a 40% increase since implementation. My responsibilities included continuous updates and bug fixes, ensuring high user satisfaction and retention.

Currently, I am seeking opportunities to expand my expertise in DevOps Engineering with Canadian experience. Dedicated to continuous learning and professional development, with a strong focus on applying innovative solutions and best practices within a dynamic work environment. My technical skill set includes AWS, Python scripting, RDP setup, AI prompt writing, and advanced server security, complemented by strong problem-solving abilities and a commitment to delivering high-quality solutions.

## Areas of Expertise

- **Specialized Competencies:** Full-stack web development, AI engineering, application development, server management
  - **Methodologies:** Agile, DevOps, CI/CD
  - **Technical Skills:** Web technologies (HTML5, CSS3, JavaScript), server-side programming (Node.js, Express), database management (MongoDB, MySQL), AWS cloud services
  - **Non-Technical Skills:** Creative problem-solving, project management, team leadership, communication skills
- 

## Technical Skills

- **Development Tools:** Visual Studio Code, Adobe Software Suite.
- **Programming Languages:** JavaScript, Python, PHP, CSS, C++
- **Frameworks and Libraries:** Node.js, Express, Bootstrap 5, Semantic UI, Bulma
- **Web Applications:** Webmin, Virtualmin, KVM
- **Software and Tools:** DaVinci Resolve, Microsoft Word, PowerPoint, Excel, Photoshop
- **Operating Systems:** Linux, Windows, macOS
- **Databases:** MariaDB, MongoDB, MySQL, PostgreSQL.
- **Servers:** Apache, Nginx
- **Cloud Services:** AWS (EC2, VPC, IAM, CloudWatch), Google Cloud, OneProvider, Contabo.
- **CMS:** Joomla, Wordpress, Drupal, Magento.

## Education and Qualifications

- **High School Computer Science Education**  
Habib Thameur, Bizerte, Tunisia  
2016 - 2019  
Certificate of grade completion in coding, network management, and database management.
- 

## Certifications and Trainings

- **Udemy Certificate: [HTML5, CSS3, and Modern JavaScript](#)**
  - Mastered modern web technologies and full-stack development
  - Built and deployed real-world web applications
  - Implemented complex authentication systems and security measures
  - Utilized CSS frameworks and JavaScript libraries effectively
  - Created dynamic, responsive user interfaces and single-page applications

## Ongoing Learning

- **Udemy Certificate: Python & Ethical Hacking**
    - Deep understanding on how computer systems work
    - Model problems, design solutions & implement them using Python
    - Read, analyse & manipulate network packets
    - Downgrade HTTPS to HTTP
    - Bypass Anti-Virus Programs
- 

## Languages

- **Arabic:** Fluent
- **English:** Basic
- **French:** Basic
- **Turkish:** Basic

## Professional Experience

- **AI Engineer Expert**  
QOUIQ, LLC  
2024 - Present
  - Managing an AI services company
  - Developed AI-driven applications and solutions
  - Oversaw project lifecycle from conception to deployment
- **Application Engineer**  
OkkitO, Turkey  
2021 - Present
  - Designed and maintained a streaming application for news and live sports
  - Enhanced app functionality and user experience
- **Founder, Developer**  
Laqta.tn, Tunisia  
2018 - 2023
  - Developed an automated e-commerce platform for gift cards
  - Integrated with third-party services and managed client transactions
- **WordPress Management and Development**  
2015 - 2024
  - Configured, developed, and customized WordPress sites and themes
  - Implemented SEO, performance optimizations, and security measures
- **AWS Management and Server Safety**  
2019 - Present
  - Managed cloud infrastructure including VPCs, EC2 instances, and IAM roles
  - Ensured security and performance of server environments
- **AI Development and Prompt Writing**  
Since 2022
  - Engineered prompts for AI models and developed conversational agents
  - Integrated AI with external services and fine-tuned models
- **Photography and Video Editing**  
2014 - Present
  - Experienced in editing with Photoshop and DaVinci Resolve
- **Product Design and Marketing**
  - Designed and marketed products using Meta Ads and Google Ads
- **Senior Drone Pilot**
  - Proficient in piloting DJI drones
